GENERATOR MAINTENANCE

Now that you made an investment to protect your house or business you may ask yourself how and when do I protect my generator. At New York Electric Company LLC our Tech's are Factory Certified to work on most Generators such as: Generac, Kohler, Brigg and Stratton, Onan, Cummins, and so on to provide you the best professional service for your generator. Most manufactures recommend that you have your Whole House Generator Tune Up every 200-240 hours of use or once per year. New York Electric Company offers many different Maintenance plans to chose from depending upon the size and type of your generator and the amount of trips per year.

With our basic Maintenance Plan we will come out to your location twice a year to inspect the Generator for proper function, and provide you your yearly tune up on your Generator. For more information about our Maintenance Plan, Extended Warranty plans, Tune Up, Services and other products call 631-629-4840

We service all:

- Marine Generator
- RV Generator

Air Cooled Generator will have the following maintenance/ Tune up:

Kohler Portable Generators

These beasts can backup your home, power a campsite and weld a house without breaking a sweat. Tough as nails and loaded with muscle, KOHLER generators power you through. See the complete line-up of generators and inverters. Camping, tailgating, backup power. They do it all! Kohler portable generators are powerful, light and up for anything.

Honda Portable Generators

Home Back up Power With a Brain

Honda Portable Power Systems offer homeowners a superior home back-up alternative. Now, when the power goes out, you can count on your Honda generator and HP²S to be at the ready.

- Home back-up power designed to offer an uninterrupted power source for your family
- Automatic power management makes HP²S easy and convenient to use
- Allows your Honda generator to perform like a unit 20 – 50% bigger
- Portable power means you can take it with you for other activities

Champion

Champion Power Equipment: New York Electric Company offers you the design, manufacture and support of dependable, durable, and affordable portable generators, inverters, transfer switches, and much more.

We proudly offer Champion Power Equipment, being a US owned and operated company with manufacturing facilities abroad, Champion stands tall with New York Electric Company among its competitors by our commitment to quality throughout the engineering, quality assurance, manufacturing and customer service processes.
